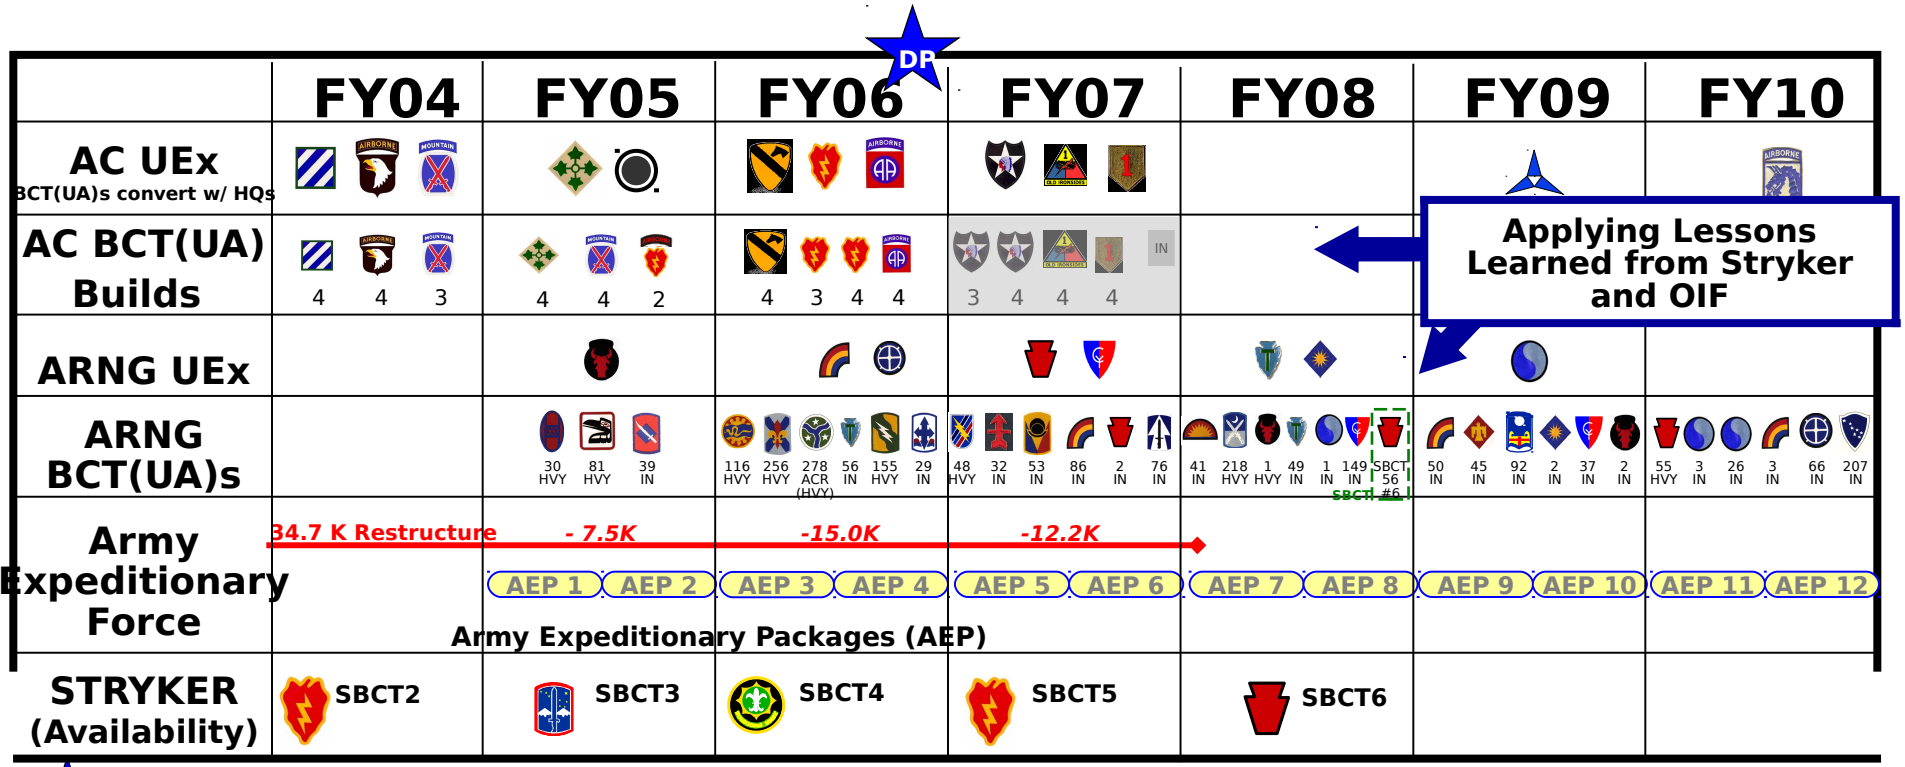
Everyone in the TACOM Life Cycle Management Command is fully engaged in the RESET Effort! (Depots/Arsenals/OEMs & Suppliers)

The Army Campaign Plan



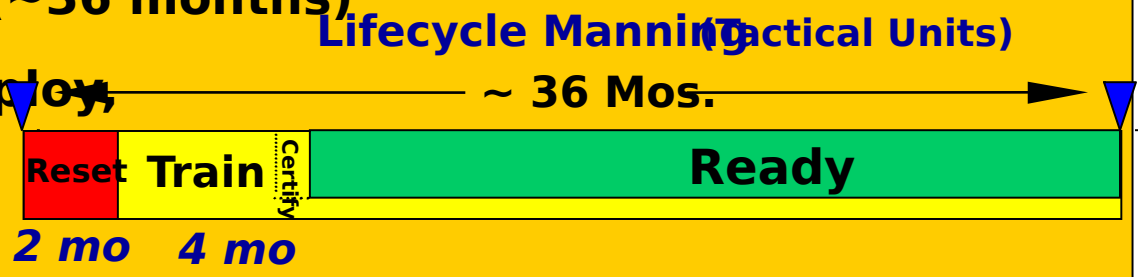
DP Decision point for an additional 5 AC Modular Brigade Combat Teams in FY07

- **Increased Joint Combat Capability**
- **Globally Managed Deployments**
- **Improved Versatility**
- **Modular AC/RC Design**
- **Increased Readiness**
- **Increases Stability**

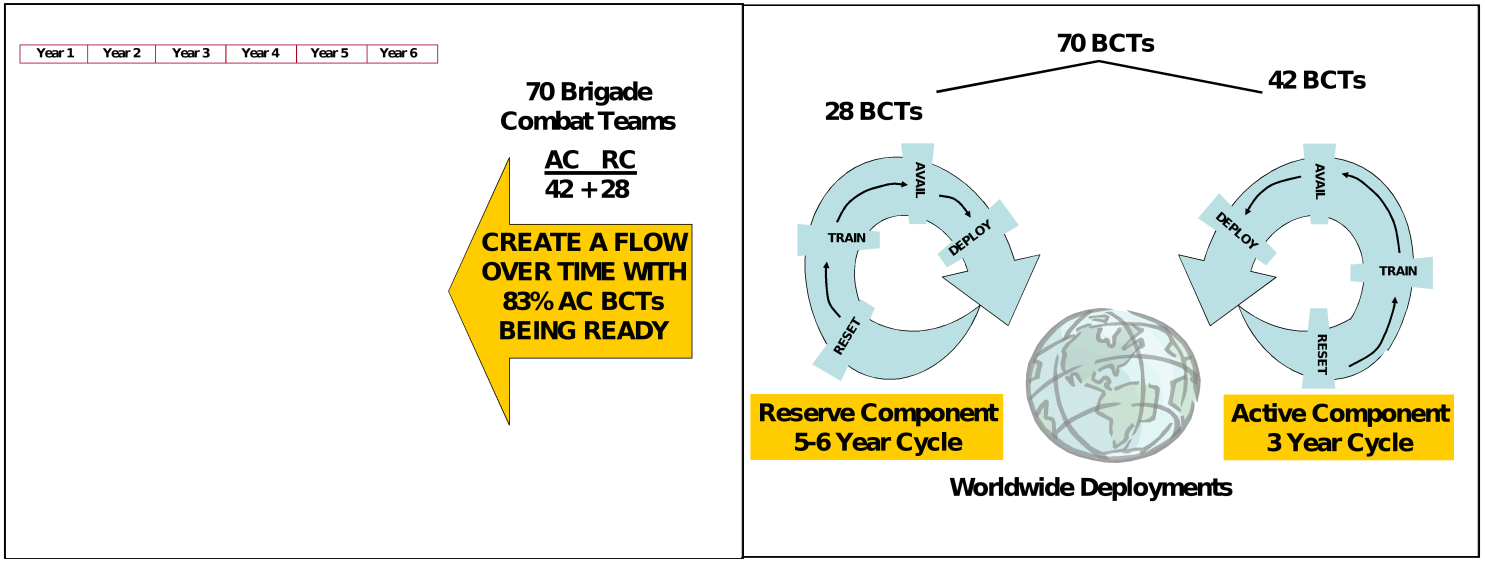
Army Force Generating Model
ARFORGEN

Unit Stabilit

- Align Soldier assignments with a unit's operational cycle (~36 months)
- Soldiers arrive, train, deploy, and depart together
- Improves cohesion and training effectiveness

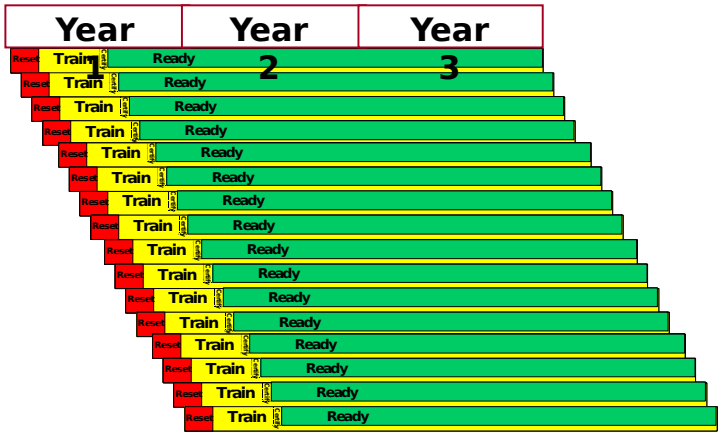


Provides Predictable Ready & Available Forces



ARFORGEN

Reset Support a Continuing Requirement



Command Structure also in Flux

ABOUT 14 AC + 5 RC BRIGADES GO THROUGH RESET EACH YEAR

- **Touch units once in 3 year cycle**
- **Short timeline for RESET**
- **Include FCS Spin Outs**
- **How do we work AC / RC Funding**

Creating Predictably Ready Forces

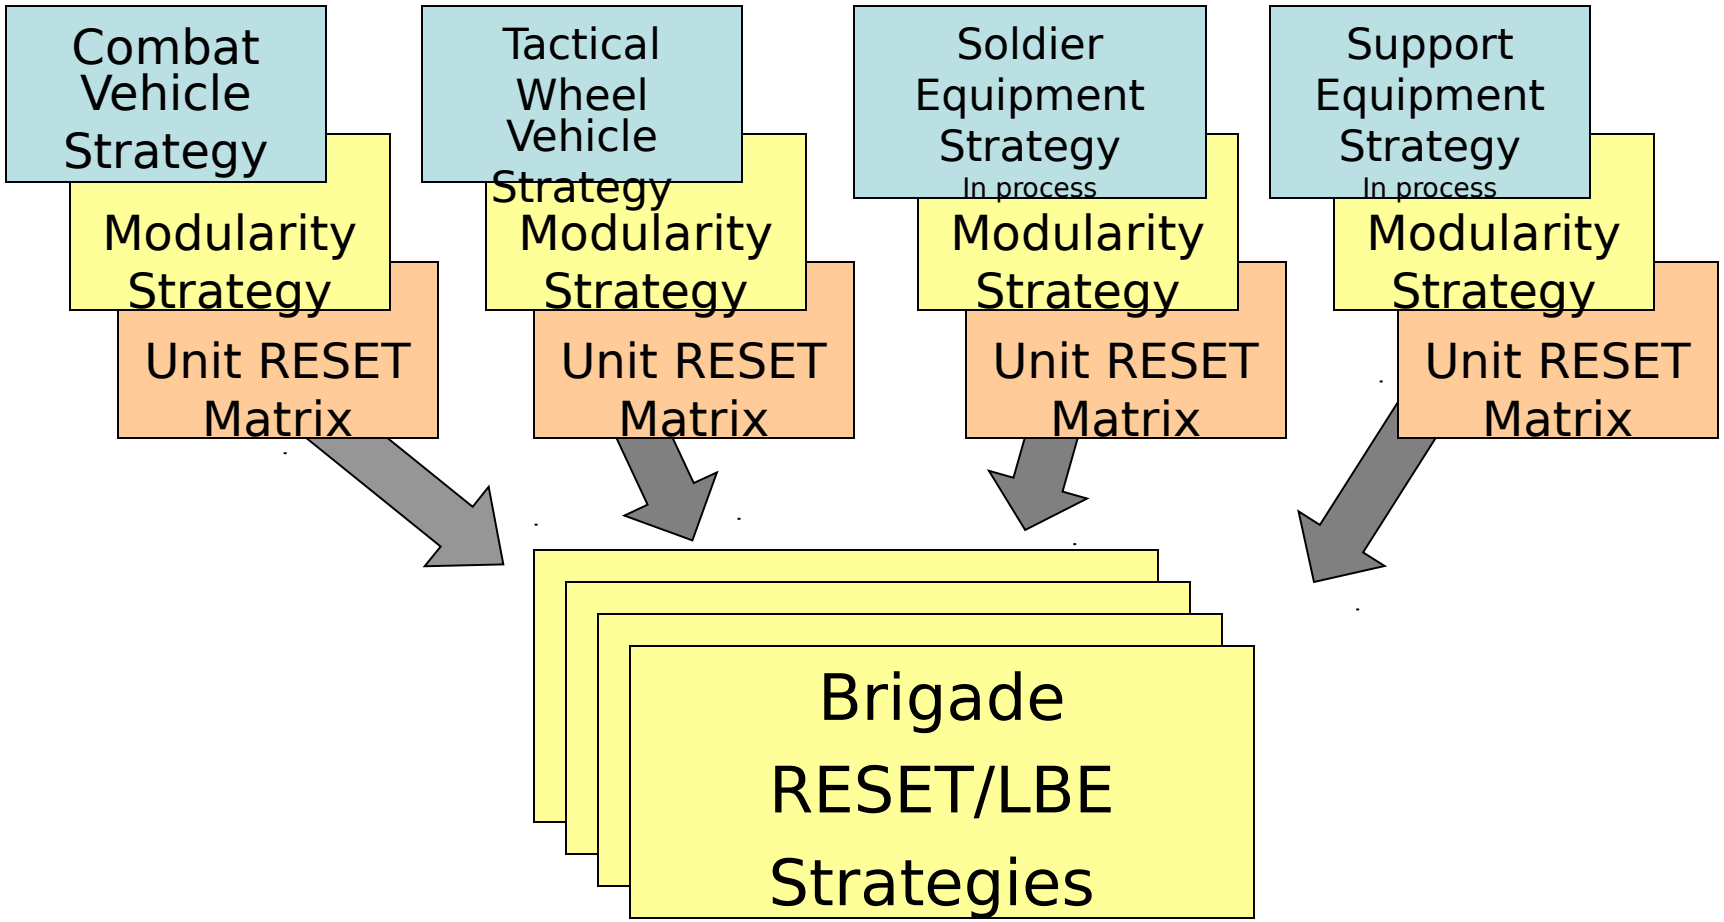
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6

70 Brigade Combat Teams

AC	RC
42	28

CREATE A FLOW OVER TIME WITH 83% AC BCTs BEING READY

ARFORGEN
Sustainment Management



We did this for 3ID RESET/Modularity effort during initial modularity push post OIF-1

HBCT approach is GOOD

Tanks Bradleys
M113s Paladin
FAASV

JOINT AGREEMENT
PM
AMC
FORSCOM
DIVISION

→ **Agreed to combat vehicle RESET strategy**

→ **FORSCOM committed Their OMA $**

Easier Sell After 4ID success

RECAP PROGRAMS

NATIONAL LEVEL RESET

10/20 & 3D+

DEPOT

LCMC COR on the ground for local Reconstitution efforts

OEM

SBCT on similar path, But also coordinating other System RESET/Reconstitution - BCT focus

Small Arms Works, But Not A Strategy

AMC Pays Team

If Division agrees to fund parts from OMA

RECAP PROGRAMS

NATIONAL LEVEL RESET

SARET TEAM

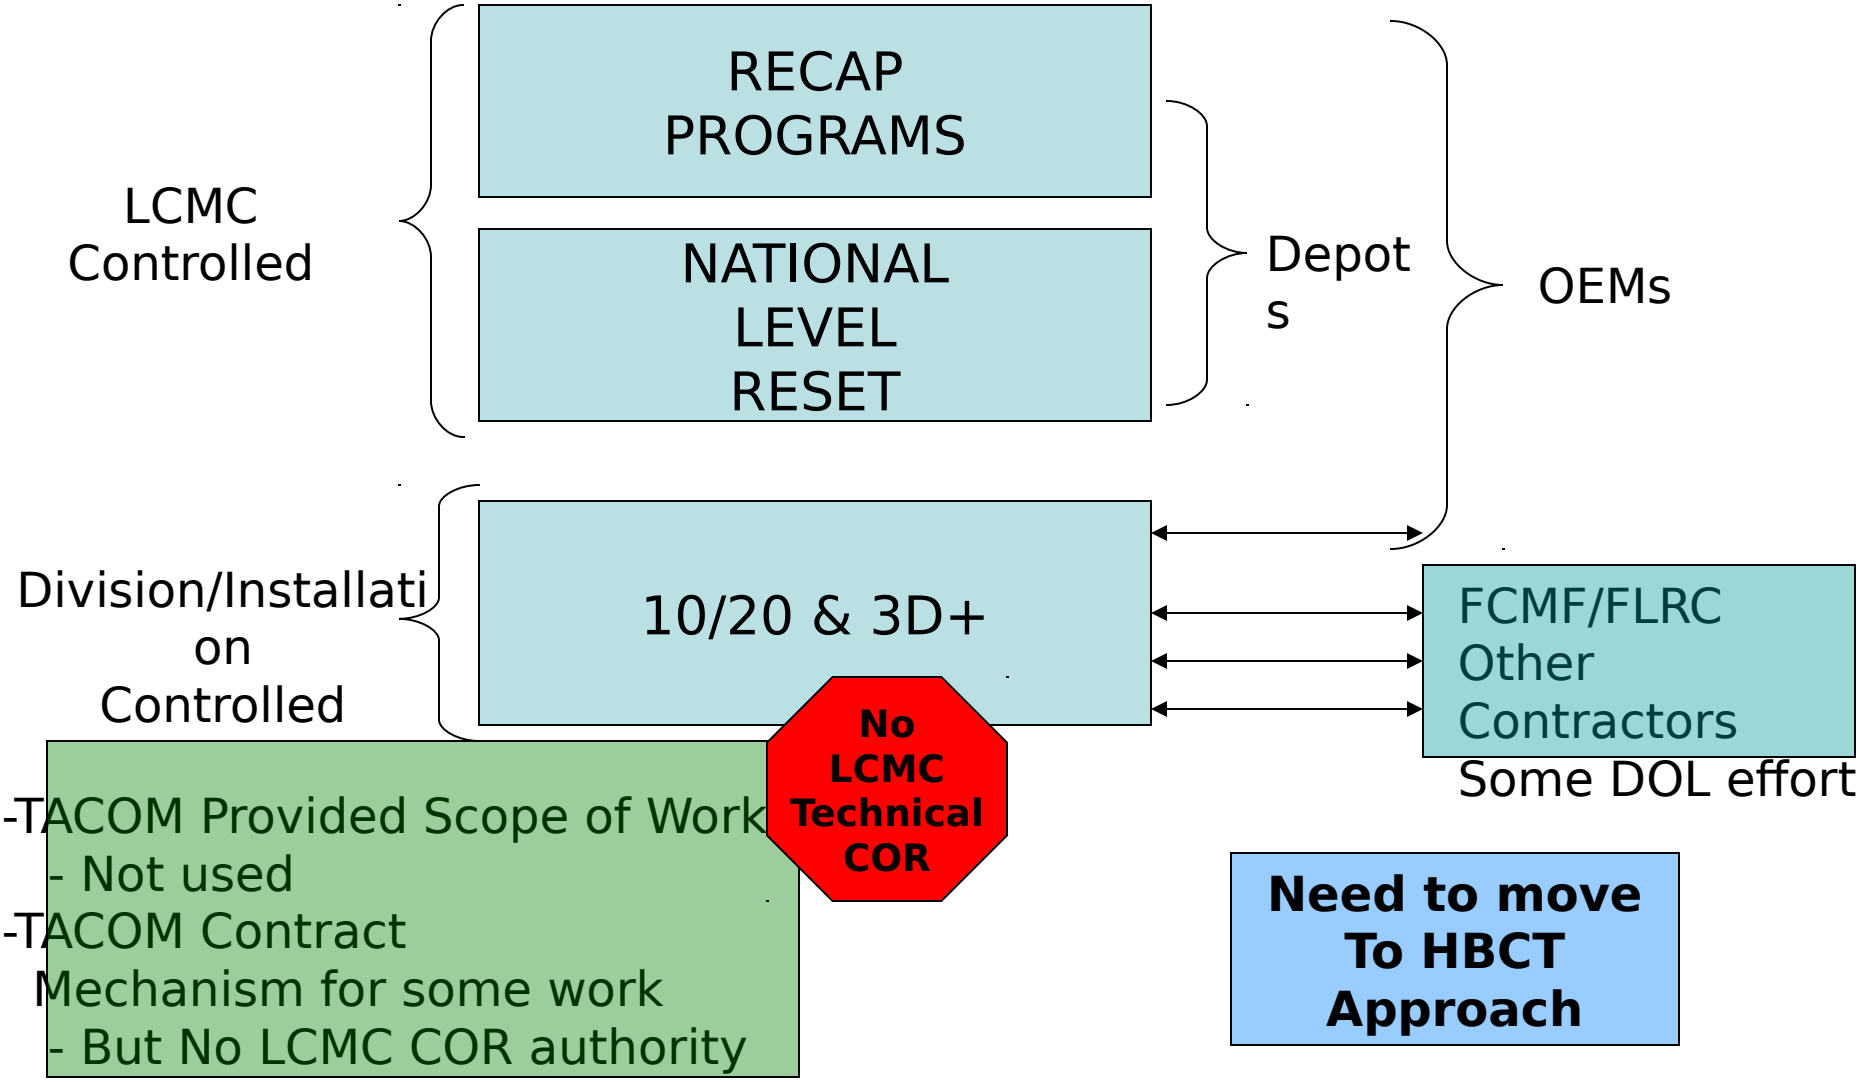
10/20 & 3D+

Codes Out Weapons Needing Replacement

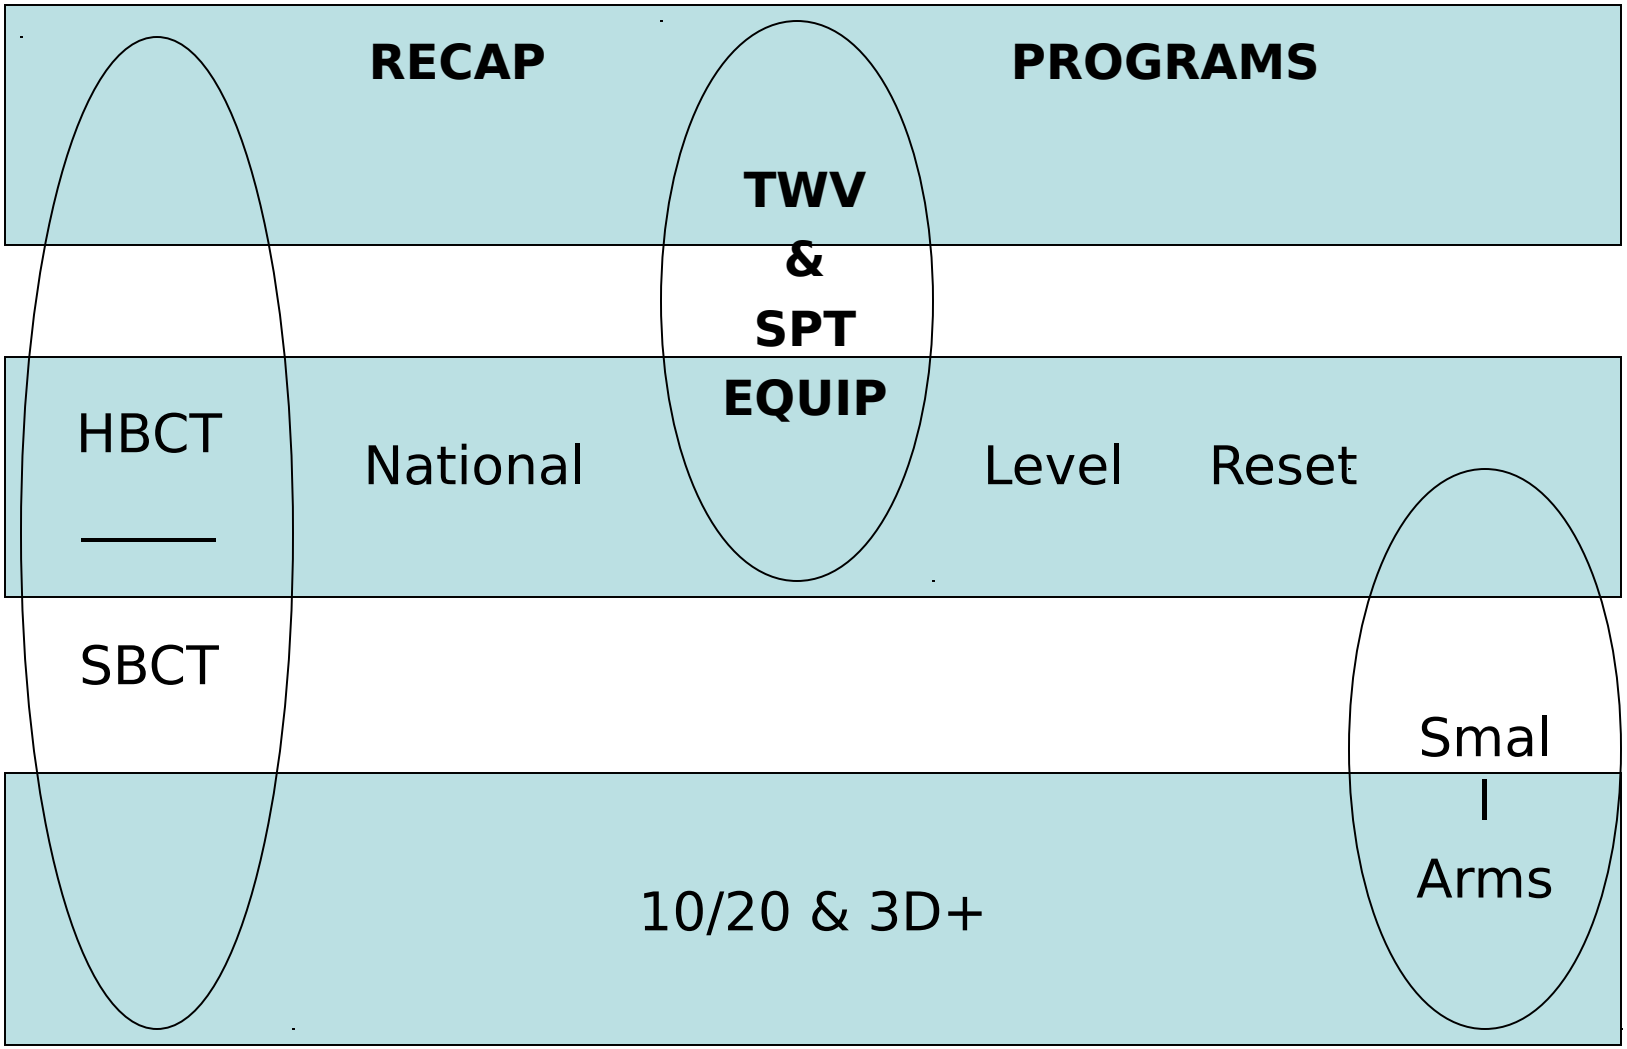
82nd Airborne Repair And Return National Funded

Needs to establish Repair cycle stock For direct exchange $11M would allow 2 BCT a month

Tactical Wheeled Vehicles Must Fix



Current Status



What Are We Doing

- Working with depots, industry & FORSCOM to establish cost estimates and recommended revised scopes of work:
  - Depot Recapitalization
  - Depot or OEM level of RESET (Major Work)
  - Reconstitution (Medium & Light Work)
    - Oshkosh Reset of HEMTT, HET
    - S&S Reset of FMTVs
    - AM General Reset of HMMWVs
    - FLRC Reset of HMMWVs, 5 Tons, Other Vehicles
- Determine strategy by BCT, Unit
  - Meet Modularity Needs (Cascade of equipment & upgrades)
  - Touch unit once with upgrades
- Focus on full BCT (Combat vehicles, Tactical Vehicles, Soldier Items, Support Equipment
